As noted by Applicant, the amendment to claim 57 has overcome the grounds of rejection previously presented. Further, claims 57 and 9 are herein deemed allowable over the prior art of record for substantially the same reasons as noted in the reasons for allowance of claims 1 and 23 of the Office Action mailed on November 3, 2004. In particular, Examiner notes that it would have been obvious to one skilled in the art to have added a color filter to Park as noted in the previous rejection of claims 57 and 9, however, it would not have been obvious to have modified Park with Hasegawa to provide for a controller for switching between an expanding mode and a normal drive mode since the resolution of Park is not effected by the expanding mode.

As such, all pending claims are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
